move your throttle levers to the forward position

remove the mount bolts on the side of the jet pump

pull off the anode

add this to the spring stop bracket

clean your nozzle

add the loctite portion

apply some of this epoxy here to the area on the nozzle

get all of the epoxy off of this face

take the left side bolt assembly

prevent the spring from rubbing up on the reverse bucket

tie the two fins together using the crossmember

press the cross member into the little pocket

align the pin fasteners into that little recess on the inside

carve away any extra powder coat

add the cross tie

add the sprinkler the steering clevis bolt back in place

make sure that the reverse bucket is pivoting
